Rogers Behavioral Health - Addiction

Treatment Facility

“Founded in 1907, Rogers has expanded to increase access to care and is now one of the largest behavioral health systems in the country. Our staff has the expertise and experience found only in a stand-alone, not-for-profit behavioral health hospital, such as our own. At Rogers, we treat adults in all stages of addiction with a full range of effective treatment options including: residential treatment through the Herrington Recovery Center in Oconomowoc, Wisconsin, partial hospitalization for dual diagnose, intensive outpatient programming for dual diagnosis in Madison, intensive outpatient for addiction, as well as withdrawal management or detox. We provide an aftercare program that is free to anyone who has successfully completed treatment for addiction which helps patients sustain their recovery. We also offer on-site support groups, such as AA, and frequently encourage family education in order to create a strong support system for the patient and help apply the principles learned at Rogers once returning home. Rogers Behavioral Health has locations in Florida, Illinois, Tennessee and Wisconsin and is nationally recognized for its excellence in behavioral health care. Every location has a unique personality and offers comprehensive, individualized treatment plans for each patient.

Pathways to a Better Life, LLC

Treatment Facility

“Our primary goal at Pathways is to provide a comfortable family environment in a peaceful, therapeutic setting. We are located on 38 acres of beautiful wooded area overlooking a private spring-fed lake. Individualized resident counseling will focus on a 90-day treatment plan, which will be reviewed monthly. We strive to provide hope as well as individualized care without judgment to those adults recovering from alcohol and or drug addiction. The resident's physical, mental, and spiritual needs will be considered in providing a holistic approach to the treatment plan. Clients will have the opportunity for alcohol and drug free social interaction. Pathways will help lead a new path for residents, and to teach them means of everyday living without the use of drugs and alcohol.

West Grove Clinic

Treatment Facility

“West Grove Clinic combines the medical model, including Suboxone/Buprenorphine services), 12 step approach and holistic services in a way that is tailored for each individual patient to offer the best chance at recovery. Our staff of five physicians and 14 therapists are here to lead you through the recovery process. Our doctors include Board Certified Psychiatrists and Addictionologists, so you know you or your loved one will be getting the most informed care based on the latest research in Addiction Medicine. The Intensive Outpatient Program at West Grove Clinic is now ongoing! Client's who are referred or who would like to participate in IOP can start immediately. IOP is held on Monday's , Wednesday's, and Thursday's from noon-3:00pm. At West Grove Clinic, several additional services are available to treat and balance the patient's well-being. These include Reiki, Acupuncture, Yoga, Tai Chi, Emotional Freedom Technique and more. West Grove Clinic provides caring professionals dedicated to providing integrative, person-centered services in a safe and healing environment. It is our approach to view addiction as a disease of the brain. Many components, including the mind, body and spirit are adversely affected by this disease.

Rogers Behavioral Health - OCD Center

Treatment Facility

“Founded in 1907, Rogers has expanded to increase access to care and is now one of the largest behavioral health systems in the country. Our expert staff has the experience found only in a stand-alone, not-for-profit behavioral health hospital, such as our own. Led by Bradley Riemann, PhD, an internationally recognized expert in obsessive-compulsive disorder (OCD), Rogers' OCD Center, located in Oconomowoc, Wisconsin, is a national leader in the treatment of OCD, OC-spectrum and other anxiety disorders. The OCD Center rests on breathtaking, wooded shores of the area's lake country-- the perfect location to focus on program goals. Rogers' treatment programs use evidence-based, cognitive behavioral therapy (CBT) with an emphasis on exposure and response prevention for children, teens and adults. Specialized treatment teams work with patients to identify situations that create anxiety, and then develop a plan consisting of small steps working toward overcoming anxiety, celebrating patient success along the way. This graduated, manageable approach empowers patients to gain control over their symptoms and learn effective strategies to create a life worth living. To schedule a free screening, call (800) 767-4411, or visit rogershospital.org to request one using our online form.

Rogers Behavioral Health

Treatment Facility

“Founded in 1907, Rogers has expanded to provide greater access to care and is now one of the largest behavioral health systems in the country. Our staff has the expertise and experience found only in a stand-alone, not-for-profit behavioral health hospital, such as our own. Rogers provides specialized, evidence- based treatment for children, teens and adults from Wisconsin and across the country. Our specialized treatment teams, led by board-certified psychiatrists, provide many different levels of treatment including: inpatient hospitalization, residential, partial hospitalization and intensive outpatient. Support groups are available and family education is often encouraged in order to create a strong support system for the patient, as well as to help transition back into daily life while still using the principles learned at Rogers. It our goal to make every life worth living by helping patients and their families discover hope and healing. Rogers Behavioral Health has locations in Florida, Illinois, Tennessee and Wisconsin and is nationally recognized for its excellence in behavioral health care. Every location has a unique personality and offers comprehensive, individualized treatment plans for each patient.

Rogers Behavioral Health - Child & Adolescent Ctrs

Treatment Facility

“Rogers Behavioral Health uses a multi-modal treatment approach to deliver sensitive, age-specific intensive psychiatric care for children and teens dealing with a broad spectrum of mental health issues. Located on pristine, lakeside property in southeastern Wisconsin, The Child & Adolescent Centers at Rogers is one of only a few in the country offering intensive cognitive-behavioral therapy for these ages. Guided by Rogers' full-time, board-certified child and adolescent psychiatrists, young people receive an in-depth evaluation, intensive psychiatry and medication management, along with a full range of individual, group and family therapy, as well as educational services. Ages 8+ can receive residential programming at these centers to develop important life skills, develop techniques to cope with their emotions, and build the foundation to manage future challenges. Rogers provides year-round treatment for anxiety disorders and school refusal, avoidance or attendance issues, obsessive-compulsive disorder (OCD), OC-spectrum disorders, trichotillomania, Tourette syndrome and other tic disorders, mood disorders (including depression and bipolar disorder), ADHD, disordered eating, behavioral and family issues, trauma, multiple and complex cases and alcohol and substance use for teens. School liaisons work closely with schools and assist with a child or teen's transition back into life outside of Rogers.

Rogers Behavioral Health - Eating Disorder Svcs

Treatment Facility

“Founded in 1907, Rogers was the first provider in the nation to offer exclusive treatment for males and is one of a few in the country to offer a specialized program for adults and teens with co-occurring anxiety and OCD disorders. Led by board-certified psychiatrists, our dedicated treatment team is experienced in treating eating disorders and provides effective, compassionate care to those we serve. Rogers offers comprehensive evidence-based treatment for anorexia, bulimia, binge eating disorder and other eating disorders, as well as co-occurring OCD or anxiety disorders. Individualized treatment plans and separate programming is available for children, teens, men and women of all ages. At Rogers, our treatment approach encourages self-empowerment and family involvement in order to create a support system for the patient, which is especially helpful for continuing principles learned at Rogers once a patient leaves the program. Personalized treatment plans address each patient's needs and focus on three key areas: nutritional stability, changes in thinking and overcoming obstacles for recovery in order to accomplish a life worth living.

Rogers Behavioral Health - FOCUS Program

Treatment Facility

“Treatment is led by board-certified adult psychiatrist Jerry Halverson, MD, DFAPA, a recognized expert in the evidence-based treatment of psychiatric disorders. Supported by a multidisciplinary team, FOCUS utilizes cognitive behavioral therapy (CBT) with an emphasis in behavioral activation (BA), complemented by dialectical behavior therapy (DBT)-informed treatment. Residents have the ability to access a wide range of mental health professionals if co-occurring treatment needs are identified, providing an individualized treatment plan. Designed to reflect a carefully thought-out vision of coordinated care, this home-like setting includes expansive treatment and living areas, dining areas and semi-private bedrooms, creating a relaxing space to concentrate on treatment.

Star Guides Wilderness

Treatment Facility

“STAR Guides is an outdoor therapeutic program designed for youth and young adults who are struggling with problematic sexual behavior. STAR Guides provides families with navigation through these challenges. Regardless of past behaviors, we believe that all youth can learn to achieve healthy sexuality. Research suggests that for many, sexual problematic behavior first begins during the adolescent years. STAR Guides helps youth to deal with these problems while they are still young. Many youth in today's modern world find themselves lost and in need of direction as they attempt to navigate the thick darkness that accompanies sexual behavior problems. Just as the ancient peoples of the world, they are in need of STAR Guides. Based in beautiful St. George, Utah the program provides teens and young adults with a high impact, life-changing therapeutic wilderness experience in the heart of the majestic red rock of the high desert of Southern Utah. STAR Guides is the ideal intervention for individuals needing to learn to manage problematic sexual behaviors that they have been unable to manage previously.

Timberline Knolls Depression Treatment Center

Treatment Facility

“Each woman who enters the Timberline Knolls Depression Treatment program, will receive consistent emotional support as she begins learning healthy ways to cope with major depression and management of symptoms. Our treatment approach is holistic and integrated to support women who suffer from severe depression in finding stability and peace in recovery. We recognize that a long history of struggling with depression symptoms can trigger addictive behavior patterns, which requires expert care. That’s why many women require more integrated treatment for major depression and other disorders. Our severe depression treatment program encompasses the entirety of the woman’s being: Mind, Body & Spirit.

Hazelden's Adolescent and Young Adult Program

Treatment Facility

“Hazelden's Plymouth, MN campus is where we've been helping adolescents, young adults and families impacted by the disease of addiction for more than 30 years. Young people between the ages of 12 to 25 come to our campus to find freedom from drugs and alcohol and to restore hope. Our accredited and acclaimed programs are nationally recognized with experts and highly specialized staff to meet the developmental needs of young people. Situated on 15 picturesque, wooded acres along the north shore of Medicine Lake in Plymouth, Minnesota, our youth campus provides the ideal setting to begin the journey to recovery. We know that adolescents and young adults are most open to change when treated in an environment of dignity and respect. Our unique approach has led to our recognition as a national leader in the treatment of teen alcohol and drug addiction. And our continued commitment to the best evidence-based practices, keeps us ahead of the rest. Our innovative COR12 program is the latest in our evidence-based practices. This program uses medications to help those addicted to pain pills, heroin or other opiates so we can successfully treat young people more successfully.

Into Action Treatment

Treatment Facility

“I am no stranger to drug and alcohol addiction. After fully recovering over six years ago, I have dedicated my life to seeing others successfully complete the recovery process and start living their dreams. My life mission is to lead by example and pass the lessons I learned on to others as my sponsors passed on to me. I created a treatment center as the home base for this mission and our ultimate goal is to see that all addicts go through the entire program & become liberated from this disease. We vow to walk our clients through the ups and downs as friends, counselors, & confidants in the most compassionate but disciplined manner allowable. There are many reasons we stand out from other treatment options and the longer you look into our program the more they will start to reveal themselves. I am always available to a person in need so please dont hesitate to contact me directly. Andrey Rossin, CEO 786-942-0502 intoactiontreatment@gmail.com
